

NURLAN ACADEMY

Empowering Generations through Knowledge,
Shaping the Future through Values

INSTITUTIONAL PROFILE

ABOUT US

Founded in 2020 in Küçükçekmece, Istanbul, under the leadership of Fatma Hoca and her dedicated colleagues, Nurlan Association was established with a clear purpose: to nurture generations whose pursuit of knowledge is firmly grounded in strong moral values.

Guided by the Holy Qur'an and the Sunnah, our educational model brings knowledge and wisdom together. We are committed to nurturing well-rounded and exemplary individuals who uphold their national and spiritual values, possess a strong foundation of knowledge, and contribute meaningfully to society.

Across both of our education centers, our qualified and experienced teaching staff are dedicated to supporting each student's academic progress, skills development, and character formation, enabling them to reach their full potential. Our programs serve a wide range of age groups and include Qur'an recitation, Hifz (Qur'an memorization), Islamic Studies, and language education in Arabic, Turkish, Uyghur, and English. We also provide preschool education and supplementary study programs designed to support students in their school subjects.

Through international educational partnerships and globally recognized certification programs, we support our students as they progress toward higher education. Our Ijazah programs in Qira'at and Islamic Studies further provide students with advanced knowledge and recognized scholarly qualifications, helping them develop into knowledgeable and capable individuals.

Our goal is to prepare strong generations for the future by nurturing knowledgeable, virtuous, inquisitive, and socially responsible individuals who remain firmly connected to their religious and national values.
